

src/BBOP/Graphics/VBO.cpp

```
graph TD; A[src/BBOP/Graphics/VBO.cpp] --> B[../..../include/BBOP/Graphics/VBO.h]; B --> C[GL/glew.h]; B --> D[GLFW/glfw3.h];
```

The diagram illustrates the dependencies of the file src/BBOP/Graphics/VBO.cpp. It is represented as a tree structure where the root node is the source file, which points to a header file, which in turn points to two external library headers.

../..../include/BBOP
/Graphics/VBO.h

GL/glew.h

GLFW/glfw3.h
